How to Create Custom Cards

Print this page and the card template on the previous page.

Use these blank cards to add your own topics, inside jokes, or personalized challenges to your Know-It-All game!

Creating Great Custom Topics:

- **Be specific enough** — "Name a Marvel movie" is better than "Name a movie"
- **But not too specific** — Make sure there are at least 10+ possible answers
- **Add personal topics** — "Name a song from our wedding playlist" or "Name a place we've traveled together"
- **Include inside jokes** — Only your group will get them, and that's the point!

Printing Tips:

- Use cardstock (200-300gsm) for durability
- Cut carefully along the card borders
- Consider laminating for repeated use

Example Custom Topics:

- "Name a Taylor Swift song"
- "Name a country we've visited as a family"
- "Name something Dad always complains about"
- "Name a cocktail"
- "Name a character from The Office"
